Professional Experience

TAPPWARE SOLUTIONS LIMITED

House-566 (2nd & 6th Floor), Road 8, Avenue 3, Mirpur DOHS, Dhaka-1216

Senior Software Engineer, October 2019 to Present

Develop, maintain and support web application systems. Analyze code for system testing and debugging; create test transactions to find, isolate and rectify issues.

Key Deliverables:

- Developed large-scale application called **E-Filing** system or **e-nothi** (<http://nothi.gov.bd/>). Nothi is an application that ensure convenience to citizens through faster movement of files and documents through different layers of government offices, improving service delivery and ensuring accountability.
- Assessed costs and risks associated with developing new features and products. Drafted comprehensive reports to document bugs and design flaws.
- Implement **SSO** (Single Sign On) to ensure easy accessibility of different applications of same behavior (like government agencies application – same login process but different perspective).

ACCESS TO INFORMATION (A2I) PROGRAM

ICT tower (11th & 13th Floor), Agargaon, Dhaka-1207

Software Engineer, September 2017 to September 2019

Strengthening existing e-services and launching a second generation of integrated, inter-operable e-government applications; promoting innovation in the delivery of e-services.

Key Deliverables:

- Responsible for the design, development, and integration of solution with existing solutions (ie. **Nothi**, **GRS** etc.) & architectures (ie. **OISF**, **LISF** etc.) along with technical document preparation.
- Provide technological inputs to the e-service team for identifying best e-Service solution architecture and relevant specifications focusing Web systems, frameworks and portal as delivery channel and also focusing on the enterprise architecture perspective.

- Assist the team guiding solution providers to ensure software solutions deployment, database structuring and technology selection.

LOGIC SOFTWARE LIMITED

House-133 (2nd Floor), Road 4, Block-A, Banani, Dhaka-1213

Software Engineer, February 2017 to August 2017

Built, tested and deployed scalable, highly available and modular software products.

Key Deliverables:

- Implemented **ERP** application for **Rapid Action Battalion (RAB)** consisting four modules – HRM, Payroll, Inventory & Vehicle Management.
- Modified existing software to correct errors, upgrade interfaces, and improve performance.

PROMITI COMPUTERS & NETWORK LIMITED

19-20, (3rd floor), Ring road, Dhaka 1207

Programmer, 2014 to 2017

Worked closely with client & lead developers to establish problem specifications & system designs.

Key Deliverables:

- Developed an automated system for **Bangladesh Army** through which functions of all the Unit/ Formations/ Institutions and Army Headquarters (**MGO's Branch**) can be digitized as well as all the directorates and MGO's Branch can keep track of all the activities of their office.
- Defined business goals to determine system requirements.

Education & Credentials

BSc (Hons) Computer Science & Engineering (CSE)

Bangladesh University of Business & Technology (BUBT)

Certifications:

- ICSI-Certified Network Security Specialist
